25X1

25X1 7. [redacted] Met with Mr. James Cline, Counsel, House Immigration Subcommittee, and received from him a copy of a letter of March 26, 1965 received from the Executive Director, Radio Liberty, Munich, Germany.

Discussed at length with Mr. Cline the favorable committee meeting of a week ago on private bills and the present outlook in the Subcommittee for the handling of legislation after the President's bill clears the docket. One bill was identified that might provide an appropriate vehicle for an amendment to section 316(c) of the Immigration and Naturalization Act relating to residence requirement for naturalization. ✓

25X1 8. [redacted] Met with Mr. Russell Blandford and other members of the staff at various times during the day concerning Mr. Vinson's visit to the committee during the morning for the dedication of the hearing room. The best information available would indicate that Mr. Vinson will remain the greater part of the weekend as a guest of President Johnson at the White House but will probably return to Millidgeville immediately even though his adopted family will be traveling down to Millidgeville during next week to spend Easter with him.

25X1 9. [redacted] Met with Dorothy Fordick of the Senate Subcommittee on National Security Staffing and Operations concerning her informal request to the Agency for a study relating to inter-governmental relations within the Soviet and Communist block nations. I advised Miss Fordick that the matter had been thoroughly reviewed and that the personnel necessary for the study are completely committed at the present time. Miss Fordick thanked me very much for our consideration and indicated that since this general area is one that does not have a necessary time emphasis, the committee might like to raise the question with us again in six months or so. I advised that we would be happy to review the matter should the committee desire it at some later date.
